## SEAMLESS EDGE

Seamless Edge provides a smooth transition between the surface top and edge creating the illusion of a single flowing solid surface. Utilising state of the art technology, Seamless Edge creates a beautiful monolithic surface with an elegant profile.

## ELEGANT

Seamless Edge creates a vanishing edge on products, displaying a seemingly endless surface. The sleek aesthetic provides an elegant, ergonomic profile.

## DURABLE

By creating a monolithic surface, the Steelcase Seamless Edge has eliminated the porosity of a glue line, increasing the life of surfaces and promoting a cleaner work environment.

## SUSTAINABLE

Seamless Edge provides a better alternative to conventional glue edge banding. It suppresses the use of solvents to clean glue excess on the polypropylene profile and the certified particle board material.

## STATEMENT OF LINE

Available on all shapes, both linear and curved.

Product ranges: Share It, Implicit and B-Free. Ology will also feature Seamless Edge at introduction.

## SURFACE MATERIALS

Colour palette:

- G0 / 230 Crystal
- WY Snow
- AT Acacia

Colours are representative and may vary slightly from actual material.

## SUSTAINABILITY

Designed by Steelcase, Seamless Edge is manufactured in Rosenheim and Durlangen (Germany) for the EMEA (Europe, Middle East and Africa) market.

Certifications:

PEFC - Programme for the Endorsement of Forest Certification

**E1**

Low concentrations of formaldehyde in wood

**"E0,5"**

Very low emissions of formaldehyde from wood

Sustainability actions and results are communicated in the annual Steelcase Corporate Sustainability report.
